

## FAQ

### **E transfer** transaction:

This process is basically setting up the Heritage Interac Address in your Interac transaction area with your financial institution. The recipient would be Heritage Alliance Church. The email address to send this transaction to would be [giving@heritagealliance.ca](mailto:giving@heritagealliance.ca). This address is the recipient.

Once the recipient is set up, you just follow the prompts by selecting the account you wish to draw the funds from, but in the message field you would type in your giving number. Using the above example, you would write in 001 General fund. You could also provide more details like 001General fund \$100 Mission \$50 for example as long as the total matches the amount sent. This way we can direct you giving and provide proper reporting for tax purposes.
